POLITIKA ZAŠTITE OKOLIŠA JGL GRUPE (JGL d.d. i Adrialab d.o.o.)

Sustav upravljanja zaštitom okoliša primjenjuje se na aktivnosti razvoja, proizvodnje i distribucije lijekova, medicinskih proizvoda, kozmetike, dodataka prehrani, hrane za specijalne medicinske potrebe te ostalih aktivnosti podrške JGL grupe, odnosno tvrtki:

- 1) JGL d.d. na lokacijama djelovanja Svilno 20, 51000 Rijeka i Kukuljanovo 301, 51227 Kukuljanovo
- 2) Adrialab d.o.o. na lokaciji djelovanja Pulac 4A, 51000 Rijeka.

Temeljna načela i ciljevi Sustava upravljanja zaštitom okoliša jesu:

- trajno podizanje svijesti o važnosti zaštite okoliša kod svih korisnika;
- trajno opredjeljenje za poboljšavanje Sustava upravljanja zaštitom okoliša i okolišnih performansi, uključujući sprječavanje zagađenja, te smanjenje utjecaja tvrtke na klimatske promjene;
- trajno usklađenje i težnja nadilaženju zakonskih i ostalih zahtjeva u području zaštite okoliša, ali i svim ostalim područjima primjenjivim na poslovanje;
- kontinuirano unaprjeđenje Sustava upravljanja zaštitom okoliša u skladu sa zahtjevima norme ISO 14001.

Kako bi se postigla navedena nastojanja, poslovodstvo utvrđuje ciljeve Sustava upravljanja zaštitom okoliša i osigurava resurse za postizanje tih ciljeva. Pritom je sudjelovanje u Sustavu upravljanja zaštitom okoliša posao svih zaposlenika kao ključnih nositelja aktivnosti sustava.

Politika upravljanja zaštitom okoliša javni je dokument dostupan svim zaposlenicima, partnerima i drugim zainteresiranim stranama.

ENVIRONMENTAL POLICY OF JGL GROUP (JGL d.d. and Adrialab d.o.o.)

The Environmental management system (EMS) applies to the activities of development, production and distribution of medicines, medical devices, cosmetics, food supplements, food for special medical needs and other support activities of the JGL Group, i.e. the following companies:

- 1) JGL d.d. at the locations of operations Svilno 20, 51000 Rijeka and Kukuljanovo 301, 51227 Kukuljanovo
- 2) Adrialab d.o.o. at the location of operation Pulac 4A, 51000 Rijeka.

The basic principles and objectives of the Environmental management system are:

- permanent awareness of the importance of environmental protection among all users;
- sustained commitment to improving Environmental management system and environmental performance, including pollution prevention, and reducing the company's impact on climate change;
- permanent harmonization and striving to overcome legal and other requirements in the field of environmental protection, but also in all other areas applicable to business;
- continuous improvement of the Environmental management system in accordance with the requirements of the ISO 14001 standard.

To achieve these efforts, management of JGL group shall establish the objectives of the Environmental management system and provide resources to achieve those objectives. Participation in the Environmental management system is the job of all employees as key carriers of the system's activities.

The Environmental policy is a public document available to all employees, partners and other interested parties.
